## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art cited or reviewed by the examiner teaches a method of preventing leaching of metal from a metal containing solid substrate by of coating the metal containing substrate with the chelate ligand solution claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent 6586600 by Atwood et al teaches of using the chelate ligand for removing metal particles from an aqueous solution.
